

KR-MED 2008

Representing and Sharing Knowledge Using SNOMED

May 31, 2008 – June 2, 2008 • Arizona Grand Resort • Phoenix, Arizona

The third edition of KR-MED is held in conjunction with the AMIA Spring Conference. This year's program reflects the international increase in interest in SNOMED CT. With the formation of the International Health Terminology Standards Development Organization (IHTSDO), which has nine charter members from three continents, SNOMED CT is truly becoming an international standard. This is reflected by the program, which highlights the advances in both knowledge representation and knowledge sharing using SNOMED CT.
